

PRESS RELEASE

DIGITAL VALUE WINS A TENDER WORTH OVER 49 MILLION EUROS FOR THE MULTI-BRAND SUPPLY OF SOFTWARE AND VALUE SERVICES FOR PUBLIC ADMINISTRATION

Rome, 22 September 2021

Digital Value (Ticker AIM: DGV) announces that it has been definitively and effectively awarded, through its subsidiary Itaware, the following lots of the tender called by Consip S.p.A for the multibrand supply of software, maintenance and related services:

- - Lot 1 ORACLE technology and related services in RTI at 70% with Eurolink S.r.l., for a total lot value of €23 million.
- - Lot 6 SAP technology and related services in a 70% joint venture with Technis Blu S.r.l., for a total lot value of 30 million Euros.
- - Lot 7 ADOBE technology and related services at 100%, for a total lot value of 12 million Euros.

The expected turnover will be effective from November 2021 and all contracts will have a duration of 12 months.

The values quoted do not include any legal extensions equal up to 40% of the original contract.

The Digital Value Group confirms its leading position in supporting the Public Administration in its digitization process, also increasing its already substantial order portfolio, that actually still does not reflect any positive effect of the PNRR.

Digital Value SpA

Digital Value S.p.A., with headquarters in Rome and Milan and operations throughout Italy, is the head of a Group that is one of Italy's leading operators in the IT solutions and services sector, with consolidated revenues of EUR 442 million and over 230 employees (source: consolidated financial statements as at 31 December 2020). The Group carries out research, design, development and marketing of ICT solutions and services for the digitalisation of large account customers operating in the strategic sectors of the country's economy - Telecommunications, Transport, Utilities, Finance, Industry and Public Administration - which represents the leading segment of the ICT market (over 50% of total national demand). Digital Value consolidates unique and specialised skills, able to offer a complete coverage of the technological innovation needs of key market segments, as a result of a steady and significant growth path. The Group's success is based on the unique skills, know-how and specialisation of its human resources, as well as on its acknowledged ability to plan, implement and manage innovative and functional project solutions for the digitalisation of its customers.
