

PRESS RELEASE

DIGITAL VALUE IS AWARDED A FRAMEWORK AGREEMENT VALUED AT €31 MILLION WITH A PRIMARY PUBLIC ENTITY.

The award concerns the construction of “Data centers in-a-box” and strengthens the Group's position in the digital transformation in the Public Administration sector.

Rome, 31 May 2023 - Digital Value SpA (DGV Ticker), the leading operator in Italy in the ICT infrastructure sector and Euronext Tech Leaders company listed on Euronext Milan, announces that a well-known public body has granted the non-effective final adjudication of a Framework Agreement for infrastructure development to support mission-critical workloads, with a value of €31 million, to the subsidiary Itaware.

With a duration of 48 months, the agreement includes **Dell VxBlock technology and related maintenance services**. This particular solution selected by the entity, referred to as “Data Center in a box”, allows virtualisation, backup, resetting and integrated disaster recovery, effectively simplifying IT infrastructure management thanks to a tailor-made and ready for use system characterised by storage power and data protection features.

Massimo Rossi, Digital Value's Chairman and Chief Executive Officer, commented: *“This success once again confirms our contribution to the digital transformation of Public Administration. We further establish ourselves as a valued partner for customised, safe and reliable technological solutions that meet the specific needs of each entity.”*

The adjudication allows Digital Value to strengthen its position in this market segment and to confirm its growth in the Next Generation Data Center, the business line dedicated to physical and virtual infrastructures, which has historically differentiated the Group in terms of its competence, market share and competitiveness.

Digital Value S.p.A

Digital Value S.p.A., with headquarters in Rome and operating throughout the national territory, heads a Group that includes Italy's leading operators in the ICT services and solutions sector, with consolidated revenues of €708.5 million and over 400 employees (source: consolidated financial statements of 31 December 2022). The Group works in the research, design, development and sales of ICT services and solutions for the digitalisation of large account clients working in strategic sectors of the country's economy - Telecommunications, Transport, Utilities, Finance, Industry and Public Administration - which represent the driving segment of the ICT market. As a result of its significant constant growth, Digital Value embodies a unique range of specialised skills, providing complete
