

Accessibility Statement for digitalvalue.it

EqualWeb is committed to promoting [web accessibility](#) for people with disabilities. We are continually improving the user experience for all site visitors and applying the relevant accessibility standards. EqualWeb has taken careful measure to ensure an excellent user experience, regardless of the assistive technology being used to access this site.

Certificate & Conformance Status

This is to confirm that this site has been reviewed by software developers and remediated to meet standards set by the WCAG 2.2 (Web Content Accessibility Guidelines 2.2) at the AA level. The [WCAG 2.2](#) AA level covers a wide range of recommendations for making Web content more accessible. WCAG 2.2 AA level guidelines include specific details on how to develop accessible Web content. This statement certifies that specific techniques were met for the Success Criterion detailed by WCAG. As a result, this website's content has been made more accessible to a wider range of people with disabilities, including blindness and low vision, deafness and hearing loss, learning disabilities, cognitive limitations, limited movement, speech disabilities, photosensitivity and combinations of thereof. By implementing and adhering to these guidelines, this website's web content has also become more usable to users in general. Using the accessibility widget is subject to the our [privacy_policy](#) which can be found at the company's website.

Measures taken to make this website more accessible

Equalweb's Automatic system, team of developers, designers and content accessibility experts has reviewed, remediated and tested this website by performing multi-layered accessibility testing and analysis of the new and updated accessibility measures and web content. As part of the process to make this website more accessible, adjustments were made which include JavaScript & CSS work. The process also included accessibility modifications for assistive technologies (e.g. NVDA, JAWS etc.). Below is a complete list of accessibility modifications and functionalities made.

Compatibility with browsers and assistive technology

Our mission goal is to be able to support the widest array of browsers and assistive technologies as possible. We have therefore invested efforts to support popular systems with high market share, including Safari, Chrome, Firefox, and Opera. We have also

addressed JAWS and NVDA assistive technologies for Windows and MAC.
