Press release

Digital Value Announces New Corporate Governance Structure:

Alessandro Nasi Appointed Chairman, Maximo Ibarra Chief Executive Officer

The new leadership team will drive a long-term industrial strategy aimed at strengthening Digital Value and contributing to the creation of a national champion in ICT infrastructure and digital transformation services.

- Alessandro Nasi has been appointed Chairman and Maximo Ibarra Chief Executive Officer, with a mandate to lead the implementation of the Group's next phase of development.
- Vittorio Palladino steps down as Chairman and remains on the Board of Directors as Chair of the Nomination and Remuneration Committee. Anna Tanganelli and Natale Castagna also join the Board of Directors.

Rome, November 9, 2026 – As part of the renewal of the Group's corporate governance structure, Digital Value S.p.A., one of Italy's leading providers of ICT solutions and services for large enterprises and public administrations, today announced the appointment of **Alessandro Nasi as Chairman** and **Maximo Ibarra as Chief Executive Officer**.

With the backing of its shareholder **One Equity Partners** ("OEP"), the new leadership team will lead an industrial development and transformation strategy designed to strengthen Digital Value's position in the Italian technology infrastructure and digital services market, with the ambition of contributing to the creation of a national champion capable of competing on an increasingly broad scale.

One Equity Partners acquired control of Digital Value in March 2026 and subsequently delisted the company following the acquisition of all shares held by public investors. OEP has a long-standing track record of investing in the Italian IT sector, with previous investments in companies including Engineering, Lutech and Kirey.

The strategy will build on Digital Value's talent, in-house expertise and established network to accelerate organic growth while pursuing consolidation opportunities in a fragmented market. The objective is to provide customers with an integrated technology platform capable of supporting large enterprises and public administrations across the entire value chain, from IT infrastructure to cloud, cybersecurity, data and artificial intelligence.

The strategy is underpinned by a robust governance framework, a commitment to developing people and a long-term industrial vision, with a strong focus on execution excellence and maintaining the trust of customers and stakeholders.

Alessandro Nasi brings extensive international experience in corporate governance, business transformation and value creation. He serves as Chairman of Comau and GVS and sits on the Boards of Directors of Exor, CNH Industrial, KIRKBI and the LEGO Group. He previously held senior leadership positions within the Fiat, Iveco and CNH Industrial groups, having begun his career in international finance.

Maximo Ibarra is a prominent international executive in the telecommunications and technology sectors, with more than 30 years of experience leading major corporations and managing complex business transformations. He previously served as Chief Executive Officer of Engineering Ingegneria Informatica, Sky Italia, KPN, Wind and Wind Tre, overseeing major growth, integration and innovation initiatives. He is also a Professor of Digital Marketing at LUISS Guido Carli University in Rome.

Vittorio Palladino steps down as Chairman and remains on the Board of Directors as Chair of the Nomination and Remuneration Committee. As part of the governance renewal, Anna Tanganelli and Natale Castagna join the Board of Directors, while Marco Patuano, Laura Cappiello and Maria Luisa Mosconi step down from the Board.

“Digital Value has the expertise, people and industrial foundations to play a leading role in Italy’s digital transformation,” said **Alessandro Nasi**, Chairman of Digital Value. “Our ambition, together with One Equity Partners, is to build a national champion capable of competing on an increasingly broad scale by investing in innovation, talent and growth. With Maximo Ibarra as CEO, we aim to develop a strong, long-term industrial strategy that creates value for our customers, our people and all our stakeholders.”

“Digital Value benefits from strong capabilities, leading customers and highly talented people,” commented **Maximo Ibarra**, Chief Executive Officer of Digital Value. “Our priority will be to translate this industrial ambition into tangible results by strengthening our integrated offering, investing in innovation and supporting customers as they navigate the challenges of digital transformation. We will work with determination to grow the Group and unlock its full potential.”

“I would like to thank Paolo Vantellini, outgoing Chief Executive Officer, and the outgoing Board members for their valuable contribution to the Group during a particularly delicate phase. With the appointment of Nasi and Ibarra, the Group now has a strong governance foundation for the next phase of growth we have envisaged from the outset. We are pleased to continue supporting the company with additional capital, if needed, to fund organic and inorganic investments,” said **Vittorio Palladino**, investment professional representing shareholder One Equity Partners.
